*\*All data is based on national averages and Dispatch customer averages*

## KEY CONSIDERATIONS

- |   |  |
|---|--|
|  <p>Your in-house delivery cost includes paying an hourly salary for a round-trip drive — instead of one-way with Dispatch.</p> |  <p>Your employee's daily tasks are interrupted when they have to take time out of their day to complete deliveries.</p>  |
|  <p>A technician waiting for a part to arrive in order to complete a job, costs everyone involved time and money.</p>           |  <p>Use Dispatch when your drivers are already out, and you need to make a fast delivery while avoiding overtime pay.</p> |
